INTELLECTUAL ABODE

The faculty of our college have exceptional qualifications and are highly experienced in the legal world. Our College provides students with the necessary scholarly environment needed for overall development. We focus not only on the academics, but also on other social and legal skills which are of utmost importance in the legal sphere.

PERSONALITY ENHANCEMENT

Academic excellence is primary but not the only requirement to reach great heights in any given field. In the world of law, where human interaction and discussion is of utmost importance, we at BMLC strive to produce scholars with the right social skills by engaging them in personality development and language enhancement classes, which are a part of the regular curriculum.

INTERACTIVE ENVIRONMENT

Our campus provides the perfect balance of academic and social activities. Focus remains on providing an environment where the students can grow by interaction with each other and the faculty. Regular activities such as debates, discussions, moots and cultural events are held to allow wide interaction and enhance social skills of the students.

INTERDISCIPLINARY APPROACH

Any given topic can no longer be restricted to a particular subject. In this postmodern world, knowledge is all about looking at an issue from multiple lenses. Our curriculum teaches the students to be open minded and consider all factors relevant to a topic, be it from a legal, social or humanistic viewpoint.

MOOTING AND ADVOCACY

Practice makes a man perfect, and mooting is a necessary practice for budding lawyers. BM LAW COLLEGE via its moot court cell holds moot court competitions for proper training of students. Mooting helps students in fighting stage fear and makes for more confident personalities.

CAREER COUNSELLING

Law today is not restricted to the courts. Legal scholars have a wide range of career opportunities waiting to be explored. We prepare our students to be open to such career opportunities and provide necessary counseling to analyze which area the student is best suited for. BM LAW COLLEGE has also collaborated with Remarkable Education Pvt Ltd, which is a pioneer in career counseling.

PSYCHOLOGICAL COUNSELLING

Importance of mental health is relevant to today's fast paced competitive life. It is normal for a student to feel overwhelmed by the pressure to excel. To beat the blues and emerge stronger, we have an on-campus counselor for proper mental health guidance for students. Our college strives to be supportive towards its students in all forms, be it academic or emotional.

COMPETITIVE ENVIRONMENT

Our strive to provide a competitive environment not only by teaching students in the classrooms but also by honing their legal speaking and writing skills. Various such activities are organized beyond the classroom such as: Moot Court Competitions, Trial Advocacy Competitions, Judgement Writing, Client Counseling Competition, Court visits, Debates, Workshops and Seminars and open house discussions.

FIELD TRAINING

Students are required to intern compulsorily in all semesters. For the first two semesters, working at an NGO is mandatory to get a hold of the ground reality and contribute in every way possible. For higher semesters, court and firm internships become vital. BMLC via its internship cell has successfully placed its students at various offices and NGOs for internships each semester

C.V. DEVELOPMENT

A student's curriculum vitae is his most valuable tool. It gives an overview of his knowledge, skills and experience in the field in which he desires to be employed. A CV is his first impression. BMLC holds expert lectures on preparing one's CV and make it attractive and impressionable.
